

ARCH 631. Lecture Reading Quizzes

Date: From 11 am the day before lecture
to 2 pm the day of lecture

Worth up to 2 “bonus” pts.

For every lecture topic (excluding exam days and presentations) there will be a reading quiz *only available* on eCampus (<http://eCampus.tamu.edu>). The quizzes over the reading for the topic will be released on the day prior to the lecture at 11 am and will close at 2 pm the afternoon of the lecture.

There will be 2 questions, for a possible total of 2 points. These points are **in addition** to points earned on exams. What this means is that the possible point value *will not be included in the denominator* for calculation of the exam percentage (from total points earned as a percent of total exam points possible).

The quiz questions are structured like exam questions, but you will be allowed 4 attempts to earn a maximum of 2 points.

You will have **5 minutes to complete the quiz**. It will not allow you to save your answers and return at another time to complete it. Once the 5 minutes is over and your quiz has not been submitted, the software will automatically submit it.
